

Kömmerling®

TODAY FOR TOMORROW

A FRESH BREEZE FOR YOUR ROOMS

**Kömmerling 76 centre seal
ClimaTec Plus**

Advantages for the living climate and your property – this is what the ClimaTec Plus fan of the Kömmerling 76 centre seal PVC-U window system offers. This innovative window rebate ventilator automatically provides fresh air in your rooms, protects against wind and weather and effectively regulates air humidity. The result: You enjoy pleasantly fresh air in your home and at the same time do something to maintain the value of your property. A good feeling all around.

THE CLIMATE BOOSTER FOR YOUR HOME

Kömmerling 76 centre seal
ClimaTec Plus

ADAPTABLE

- › For new windows or for retrofitting to existing windows
- › Can be installed independently of hardware, as they are mounted across the top
- › Low space requirements due to compact design with precise plastic hinge technology

SUSTAINABLE

- › Minimises high air humidity
- › Reduces the risk of mould
- › Avoids heat loss and thus saves heating costs

USER-FRIENDLY

- › Automatic regulation of the air supply
- › The flow of air is regulated so that no draught emerges

HIGH-CAPACITY

- › Fully tested by the window technologies institute ift Rosenheim
- › Ventilation as per DIN 1946-6 and DIN 18017-3
- › Tested sound insulation up to 45 dB

AESTHETIC

- › With closed and opened windows, the fans are invisible
- › Colour matching the colour of the window seals in light grey or black
